

PAX A920 Pro

IMPROVED WITH POWERFUL PERFORMANCE.

The A920 Pro comes with a larger screen and faster performance. The A920 Pro incorporates all the features that make the A920 so successful. The performance and feature upgrades, coupled with the best-loved features from its original predecessor, deliver an exciting and fresh payment experience across all dynamic environments where mobility and speed matter.

**POWER IN
YOUR PALM**

Powerful Performance

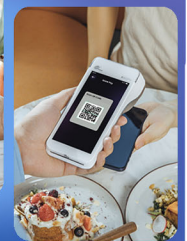

Equipped with a quad-core 1.4 GHz processor. The A920 Pro delivers fast, responsive performance for smooth multitasking and reliable payment processing.

Ergonomic Excellence

Building on the revolutionary foundation laid by its predecessor, the A920 Pro preserves its iconic crystal-like design with flowing curves while introducing enhanced features and performance.

Handle All Transactions

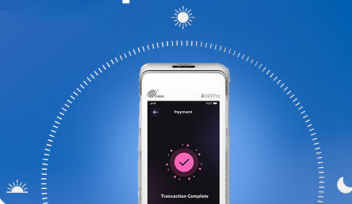

The A920 Pro supports chip & PIN, magnetic stripe, contactless (NFC), and QR code payments, giving customers the flexibility to pay however they prefer.

Brilliant in Hardware and Software

Powered by the world's best estate management platform – PAXSTORE, seamlessly integrates over 12,000+ business applications through its smart Android system, enhancing efficiency, user experience, and giving your business wings to soar.

Exceptional Battery Life

State-of-the-art technology combines to provide optimal all-day performance of the 5150mAh/3.7 rechargeable battery.

Fast Printing

The A920 Pro's high-speed thermal printer delivers crisp, professional receipts on the spot, enhancing customer service and transaction efficiency.

Always Connected

The A920 Pro's advanced connectivity supports Wi-Fi, 4G LTE, and Bluetooth, ensuring fast, stable, and flexible communication for uninterrupted payment processing anywhere.
