Contents Checklist

Congratulations on receiving your PAX Technology payment terminal. We do hope you enjoy it! Please check the contents after unpacking. If any components are missing or a page is missing from the Quick Setup Guide, please contact your PAX dealer. The box you have just opened should contain the following items:

Name	Qty.
PAX A80 Terminal	1
A80 Quick Setup Guide	1
Paper Roll	1
Power Cable	1
Power Supply	1

PRODUCT DESCRIPTION

The following section points out the various hardware features and functions of the A80.

Front View:

Back View:

Basic Operating Instructions

The following sections provide basic operating instructions.

Power ON/OFF

- Power on: Press the ON/OFF button for two seconds until the LCD backlight lights up and the terminal turns on successfully.
- Power off: Press the ON/OFF button for two seconds until the LCD nodisplay, the terminal turns off successfully.

Magnetic Stripe Card

- Put magnetic stripe side of magnetic card towards device interior, swipe the card with a steady speed during through magnetic reader slot. (Support bi-directional swiping)

IC Card

- Put IC card chip side upward, push-in IC card slot and to bottom.

Shred paper operating Instructions

Make paper 45 degrees angle right to paper knife and shred paper.

Tap contactless card (optional)

Put the contactless card into the sensing area above the LCD

Card Readers

The A80 includes the following card readers:

Magnetic Stripe Card

Place magnetic stripe side of magnetic card towards device interior, swipe the card with a steady speed during through magnetic reader slot.
{Supports bi-directional swiping)

IC/Smart Card Reader

Insert the card fully into the reader with the metallic contacts facing up and towards the device. Make sure that the card is fully inserted into the card reader while scanning the card.

Contactless Card Reader

The contactless card reader reads cards and devices placed roughly within an inch (2.5 mm). For best results, place as close to the reader as possible and center the card over the indicated area.

Terminal Installation & General Usage Tips

Installation

POWER port connects to the external power adapter.

PINPAD port connects to PINPAD.

RS232 port connects to serial port.

LAN port connects to the network cable (optional).

PHONE port connects to telephone (optional).

SAM card: Remove the cover at the bottom of the terminal. Insert the SAM card to the corresponding card slot.

Usage Tips

- If any cables become damaged, seek a replacement.
- Do not insert unknown materials into any port on the A80; this may cause serious damage.
- If repairs are required, please contact a professional technician instead of attempting them on your own.
- Avoid exposing the device to an excessively hot, dusty, or strong electromagnetic environment.
- Do not vibrate, shake, or drop the device.

Password Entering Tips

It is highly recommended to enter password as following ways:

1. Set up anti-peep shields. Enter the password with the shield by the structure of the cashier's desk.
2. Place the POS terminal at an appropriate angle and make sure it is difficult for others to read the password. For example, the POS was installed above the movable bracket.
3. When entering the password, avoid surrounding video surveillance.
4. Post written instructions to remind the customers to hide their passwords and PINs with their body or palm when entering passwords.

5. Merchants can also choose other ways to protect the customer's input password.

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution:

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The SAR limit set by the FCC is 1.6W/kg-1g. For body-worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and positions the device a minimum of 5 mm from the body. RF exposure compliance with any body-worn accessory that contains metal was not tested and certified. And use of such body-worn accessory should be avoided. Accessory available in market and must be used to keep use distance 5 mm from EUT to body-worn operation.

FCC Supplier's Declaration of Conformity

Countertop Payment Terminal/A80

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Responsible Party: PAX Technology, Inc.

8775 Baypine Road Jacksonville, FL 32256 United States

Help-desk :1 877-859-0099

ISED Notice

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux

CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 centimètres entre le radiateur et votre corps.

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

Le dispositif a été utilisé pour la construction de la bande 5150 à 5250 MHz pour la consommation de matériel pour réduire le potentiel pour les systèmes de télévision mobiles.

The SAR limit set by IC is 1.6W/kg-1g. For body-worn operation, this device has been tested and meets the IC RF exposure guidelines for use with an accessory that contains no metal and positions the device a minimum of 5 mm from the body. RF exposure compliance with any body-worn accessory that contains metal was not tested and certified. And use of such body-worn accessory should be avoided. Accessory available in market and must be used to keep use distance 5 mm from EUT to body-worn operation.

La limite de das fixée par IC est de 1,6w /kg-1g. Pour une utilisation sur le corps, cet appareil a été testé et répond aux directives d'exposition RF IC pour une utilisation avec un accessoire qui ne contient pas de métal et qui positionne l'appareil à au moins 5 mm du corps. Exposition aux RF la conformité à tout accessoire corporel contenant du métal n'a pas été testée et certifiée. Et l'utilisation de tels accessoires portés par le corps devrait être évitée. Accessoire disponible sur le marché et doit être utilisé pour garder une distance d'utilisation de 5 mm de l'eut à l'opération corporelle.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
